17-May-2026 - 18-Jul-2026 **8 Weeks**

PROFILE: Management Intern

As a Management Intern in the Civil Execution Department, I worked on the Ginigera–Raichur New Broad Gauge Railway Line project. I handled RFIs (Request for Inspection), making sure the reports were fully documented and got the necessary signatures and approvals from the PMO office. I also prepared DPRs (Daily Progress Reports), tracking work schedules against project timelines and maintaining progress records. Alongside this, I assisted with on-site execution work and keeping track of daily construction progress, coordinating with site engineers and contractors, and helping with quality and safety checks during execution, which gave me good hands-on exposure to how railway infrastructure projects are executed and managed on site.
