- Participated in client meetings and site visits.
- Assisted in construction-phase coordination and site measurements.

Documentation & Research

- Conducted site analysis and researched materials and building methods.
- Maintained project documentation and prepared presentation materials.

Technical & Professional Development

- Improved skills in AutoCAD, Revit, and other design software.
- Gained experience in teamwork, project workflows, and attention to detail.

N. V. RATHOD CIVIL ENGINEER & GOVT CONTRACTOR

15-May-2025 - 15-Jul-2025

8

PROFILE: PLANNING INTERN

1. Planning

- Assisted in developing work schedules and monitoring progress using Primavera P6.
- Monitored project progress against planned timelines and highlighted delays.
- Assisted in preparing quantity take-offs and material requirement sheets.
- Helped track labor deployment and equipment utilization on site.

2. Site Execution

- Supervised daily construction activities including structural and finishing works.
- Assisted site engineers in ensuring work was executed as per drawings and specifications.
- Conducted quality checks and monitored on-site safety compliance.
- Maintained site records, including work progress and material usage.

3. Project Coordination

- Coordinated between site engineers, contractors, and consultants to streamline workflow.
- Attended progress review meetings and documented key action points.

- Followed up on material procurement and delivery schedules.
- Helped in preparing reports and documentation for project status updates.
