INTERNSHIP / PROFESSIONAL TRAINING (Total Duration: 21 Weeks)**Swastik Edustart**

15-May-2025 - 15-Jul-2025

8 Weeks**PROFILE:** GIS Intern**Roles & Responsibilities:**

I supported within Geospatial Projects by contributing to the collection, processing and analysis of spatial data. One of the primary responsibilities was to gather, compile and manage geographic and attribute data from various sources such as satellite imagery, public repositories. This often includes digitizing maps, creating shapefiles and organizing datasets for analysis.

Another important aspect of the role involved map creation and cartographic visualization. I also designed thematic and base maps, applied appropriate symbology and labelling and generated spatial layouts using software such as ArcGIS, QGIS or Google Earth Pro.
