WORK EXPERIENCE (0 Years 4 Months)
DEE VEE PROJECTS LIMITED

05-Feb-2025 - 30-Jun-2025

0 Years, 4 Months, 25 Days
PROFILE: JR ENGINEER

Junior Site Engineer
Client: Bridge and Roof Co. Ltd.

Project: Construction of Government Medical College & Hostel Buildings (EPC Project)

Key Responsibilities:

- Served as **Site In-charge for the Nursing Girl's Hostel (G+9 floors)**, overseeing execution and coordination of all structural and finishing works.
- Assisted in the execution of structural works during the end phase, including **concrete casting** for elements such as roofs, columns, and water tanks.
- Supervised and executed **MEP (plumbing) works**, followed by **waterproofing and hydrostatic testing** of pipelines in coordination with the client, ensuring approvals before proceeding to **tiling and finishing works**.
- Prepared and maintained **Daily Progress Reports (DPRs)** and formulated the **Next Day Plan (NDP)** at the end of each day to ensure smooth workflow and resource planning.
- Conducted **material documentation**, monitored material issuance, and forecasted requirements based on technical specifications.
- Prepared and submitted **Requests for Inspection (RFIs)** and obtained client sign-offs.
- Prepared **Running Account (RA) Bills** and **measurement sheets** for subcontractors and suppliers on a monthly basis.
- Ensured all works complied with **approved drawings, specifications, and quality standards** while checking alignments and levels using tools such as **Auto Level**.
- Raised **material indents** and coordinated with the procurement team for timely availability of resources
- Maintained a strong focus on **safety protocols**, ensured compliance with all safety standards, and was **recognized by the client for maintaining excellent safety performance** on site.

INTERNSHIP / PROFESSIONAL TRAINING (Total Duration: 9 Weeks)
MINISTRY OF HOUSING AND URBAN AFFAIRS

01-Jul-2022 - 05-Aug-2022

5 Weeks
PROFILE: TRAINEE

- Studied traditional construction techniques used in historic water structures.
- Documented the condition and dimensions of existing wells through measurements and sketches.
- Assisted in restoration and repair planning, focusing on the use of materials like lime mortar and stone blocks.

- Observed masonry practices, water behaviour, and hydrology aspects of the wells.
- Maintained a daily work log and ensured adherence to safety protocols.
- Gain insights into heritage restoration and sustainable water conservation.

UTTAR PRADESH JAL NIGAM

25-Jun-2022 - 24-Jul-2022

4 Weeks**PROFILE: TRAINEE**

- Observed the complete sewage treatment process, including screening, sedimentation, aeration, clarification, and sludge handling.
- Gained understanding of flow measurement systems and water quality parameters such as BOD, COD, and pH.
- Learned about plant operation, maintenance procedures, and safety practices followed on site.
- Interacted with plant engineers and operators to understand operational challenges and environmental compliance standards.
