INTERNSHIP / PROFESSIONAL TRAINING (Total Duration: 9 Weeks)**SOBHA Ltd.**

11-May-2026 - 13-Jul-2026

9 Weeks**PROFILE:** Planning**Project Planning & Scheduling**

- Assisted in developing, updating, and monitoring project schedules using **Primavera P6** for a high-rise residential project.
- Created and managed **Work Breakdown Structure (WBS), activity relationships, calendars, constraints, and baseline schedules** to support effective project planning.
- Performed **resource loading and allocation** by assigning manpower, materials, and equipment to project activities for optimized execution.
- Prepared **micro schedules, look-ahead plans, and slab cycle schedules** to facilitate day-to-day construction planning.
- Continuously updated project schedules based on site progress and monitored critical activities to identify potential delays.

Project Controls & Performance Monitoring

- Applied **Earned Value Management (EVM)** techniques to evaluate project performance using **SPI, CPI, Schedule Variance (SV), and Cost Variance (CV)**.
- Monitored planned versus actual progress and analyzed schedule performance to support timely decision-making.
- Prepared weekly planning reports, progress dashboards, delay reports, manpower trackers, drawing trackers, and management presentations.
- Assisted in monitoring project productivity and identifying opportunities for schedule optimization and improved resource utilization.

Quantity Estimation & Material Planning

- Performed quantity estimation and verification for **reinforcement steel, concrete, shuttering, aluminium formwork, wall ties, brickwork, PCC, mesh, and other construction components** using drawings and site measurements.
- Assisted in material planning by estimating project requirements, monitoring consumption, and coordinating with the store and execution teams.
- Prepared quantity-based data to support planning, procurement, and project progress measurement.

Site Execution & Progress Monitoring

- Conducted daily site inspections to verify construction progress and ensure alignment between planned schedules and actual execution.
- Coordinated with Planning, Site Execution, QA/QC, and subcontractor teams to monitor activity progress and resolve execution-related issues.
- Tracked productivity of reinforcement, shuttering, and concreting activities using quantity-based analysis to improve planning accuracy.
- Gained practical exposure to **MIVAN Aluminium Formwork, Self-Climbing Platform (SCP)** systems, slab cycle execution, and high-rise construction methodologies.
