

ROLL NUMBER: P25700348

Manthan Dahiwale
Male

DOB

12-Aug-1999

TECHNICAL SKILLS

- AutoCAD
- MS Office

PERMANENT ADDRESS

C-302, Kandpile Residency Near Sbi
Atm Takka Panvel
City: Raigad
State: Maharashtra
Pincode: 410206

LANGUAGE

- English
- Marathi
- Hindi

SUMMARY OF QUALIFICATION

Course / Programme	Board / University Name	CGPA/ (%)	Passing Year
MBA-ACM	NICMAR University, Pune	6.73	2027
Graduation	MGM COLLEGE OF ENGINEERING	64.35	2023-Dec
Diploma	SHANTINIKETAN POLYTECHNIC, MUMBAI	77.76	2020-Nov
Intermediate	STATE BOARD	49.69	2017-May
High School	CBSE	56	2015-May

WORK EXPERIENCE (1 Year 5 Months)

Rajshree Construction Consortium

01-Jan-2024 - 14-Sep-2024

0 Years, 8 Months, 13 Days

PROFILE: Junior Engineer

Technical Support:

- 1) Assist in the design and development of systems, components, or structures.
- 2) Prepare engineering drawings, specifications, and calculations under supervision.
- 3) Conduct basic analysis and troubleshooting of engineering problems.

Project Assistance:

- 1) Support project planning, scheduling, and budgeting activities.
- 2) Participate in meetings, take notes, and assist in tracking progress and deliverables.
- 3) Prepare documentation and reports as required.

Testing and Quality Assurance:

- 1) Help with product and system testing, including collecting and analyzing test data.
- 2) Identify and report quality issues or non-conformances.

Documentation & Reporting:

- 1) Maintain project documentation, including change logs, test results, and technical notes.
- 2) Prepare status updates, reports, and presentations for internal use or clients.

Team Collaboration:

- 1) Work closely with cross-functional teams such as design, manufacturing, and QA.
- 2) Communicate effectively with peers, supervisors, and external stakeholders.

Visiontech Construction

01-Oct-2024 - 30-Jun-2025

0 Years, 8 Months, 29 Days

PROFILE: Project Engineer

Project Execution & Coordination:

- 1) Assist in planning, scheduling, and coordinating project activities from initiation to completion.
- 2) Monitor progress and report on engineering milestones and deliverables.
- 3) Ensure all technical documentation is prepared, reviewed, and submitted in a timely manner.

Technical Oversight:

MBA-ACM | MBA in Advanced Construction Management

- 1) Review drawings, specifications, and calculations for accuracy and compliance.
- 2) Support construction and field teams by resolving technical issues as they arise.
- 3) Participate in design reviews, site visits, and project meetings.

Contract Compliance:

- 1) Ensure engineering tasks adhere to the terms and scope of the contract.
- 2) Identify scope changes and support change management processes.

Quality & Safety Assurance:

- 1) Ensure all engineering work aligns with safety and quality standards.
- 2) Participate in audits, inspections, and compliance reviews.

Stakeholder Communication:

- 1) Serve as a point of contact between engineering and project stakeholders.
- 2) Prepare reports, updates, and technical summaries for clients and leadership.

INTERNSHIP / PROFESSIONAL TRAINING (Total Duration: 13 Weeks)**Kedar Buildcon Builders & Developers**

26-Nov-2022 - 26-Feb-2023

13 Weeks**PROFILE:** Site Intern**Site Supervision:**

- 1) Assist in monitoring daily site activities to ensure work is being carried out as per design and specifications.
- 2) Observe and support compliance with safety and quality standards.
- 3) Report irregularities or issues to the supervising engineer.

Progress Tracking:

- 1) Help in maintaining daily work logs, progress reports, and photographic records.
- 2) Track the delivery and usage of materials on-site.

Technical Assistance:

- 1) Assist in interpreting technical drawings, layout plans, and specifications.
- 2) Support layout marking, leveling, and measurement tasks under supervision.

Quality Control Support:

- 1) Observe and document the quality of materials and workmanship.
- 2) Report any deviations from approved specifications or drawings.

Coordination & Communication:

- 1) Assist in coordinating with subcontractors, suppliers, and site workers.
- 2) Participate in daily site briefings and safety toolbox talks.

Documentation & Reporting:

- 1) Help prepare reports on project status, material usage, and daily activities.
- 2) Maintain proper documentation of site records and correspondence.

Learning & Development:

- 1) Attend site meetings, training sessions, and inspections to understand project workflows.
- 2) Gain exposure to safety protocols, site management, and construction practices.
