15-May-2024 - 15-Jul-2024

8 Weeks**PROFILE:** Intern

Check the erection of precast elements on site as per the given drawing with site engineer , measure the offsets , GP2 grouting . For a brief period I was assigned to the precast factory wherein i was working to check the installation of steel mesh in the mould for concreting .

Kritija Enterprises

04-May-2026 - 30-Jun-2026

8 Weeks**PROFILE:** Execution Intern

During my two-month rotation internship at Kritija Enterprises on the Shubh Veda (Akurdi) project, I gained hands-on experience across multiple core construction management functions, with a primary focus on site execution. In my execution role, I assisted site engineers with day-to-day supervision, workforce coordination, and tracking material usage. Through rotations across key departments, I monitored site safety compliance and PPE usage, shadowed the planning team in tracking progress schedules using Primavera P6, and assisted with quantity take-offs and bill verifications. Additionally, I supported quality control efforts through reinforcement and formwork inspections, as well as logging routine concrete field tests.
