3. Collaborated with **Clients, Sales & Design Team**, to balance project needs with technical feasibility and budget limits.
4. Developed 2D and 3D CAD drawings in **AutoCAD and CET Configura** for clear visualization and **client approvals**.
5. Prepared **Quotations**, Bills of Quantities (**BOQ**), Bills of Materials (**BOM**), **Signoff dwg**, on-site layout & electrical cutouts during proposal and execution phases.
6. **Executed on-site layout marking** & electrical cutouts precisely per design specifications.

INTERNSHIP / PROFESSIONAL TRAINING (Total Duration: 12 Weeks)

CONCRETE TECHNOLOGY

06-Jul-2021 - 05-Aug-2021

4 Weeks

PROFILE: INTERN

1. Prepared estimation, costing, and valuation reports for **bank mortgages**.
2. Worked on **estimation, costing & valuation** for Land, Residential, and Industrial Projects.
3. Conducted **inspection and measurement surveys** assessing property size, location, and market value for mortgages.
4. Oversaw daily **site operations**, ensuring alignment with approved drawings and **technical specifications**.
5. Managed execution schedules to meet **project timelines** and plans.
6. Conducted regular inspections to verify construction **quality, monitoring materials** and workmanship against industry standards.
7. Identified and **resolved deviations** from quality requirements.
8. Enforced **safety protocols** and regulatory compliance across all site activities.

SANGAM ENGINEERS

04-May-2026 - 28-Jun-2026

7 Weeks

PROFILE: SITE EXECUTION & MONITORING

- Monitored end-to-end shuttering setup for G+3 commercial building slab, including props, H-beams, plywood laying, and beam bottom **formwork alignment**.
- Interpreted 2nd slab layout drawings, beam schedules, and structural details to support **on-site execution planning** and supervisor coordination.
- Identified shuttering joint gaps at beam-end locations and coordinated immediate rectification with the shuttering gang before concrete pour, preventing **surface defects**.
- Flagged **misalignment** at the lift core and stair slab positions during the shuttering stage by cross-referencing structural drawings, enabling correction before reinforcement.
- Verified slab level using auto-level and water level instruments and confirmed **camber provision** to prevent post-casting deflection.
- Coordinated the de-shuttering of the ground floor slab and inspected the post-casting surface for **honeycombing defects** and column starter bar accuracy.
- Prepared and submitted weekly site progress reports covering work status, material inventory, manpower deployment, **risk register**, and overall completion percentage.
- Reviewed prop spacing at beam-slab junctions against **structural loading** criteria and coordinated correction with the site engineer before the casting stage.
- Observed and documented **site layout compliance**, including mobile crane positioning, material segregation zones, and safe access, as per the approved site layout plan.
- Connected the **NICMAR ACM** curriculum to live site execution, mapped BOQ estimation against actual material consumption, and identified **real wastage vs planned quantities**.

CERTIFICATION DETAIL

- Construction Equipment Maintenance & Safety by L&T
- Foundations of Project Management
- Data Analysis
- Work Smarter with Microsoft Excel
- Finance for Non-Financial Managers
- Ethics in Engineering Practise

ACHIEVEMENT DETAIL

â€¢ NSS Volunteer â€¢ Swachh Bharat Abhiyan (Youth for Clean India), RTMNU (2019-2021)

â€¢ Sports: 1st Place in Table Tennis (Singles), 2nd Place in Football (Inter-department Tournament)

â€¢ Recognized for teamwork and proactive approach during internship and live project coordination.
