INTERNSHIP / PROFESSIONAL TRAINING (Total Duration: 86 Weeks)**Concept Designers**

01-Sep-2023 - 31-Dec-2024

69 Weeks**PROFILE:** Junior Architect

During my time at Concept Designers, I was involved in residential projects where I contributed from the initial design stage to the preparation of detailed construction drawings. I worked closely with senior architects to develop practical and buildable design solutions, while also handling drafting and documentation required for execution.

I regularly coordinated with consultants and contractors to address on-site and design-related challenges, which helped me understand how drawings translate into actual construction. This experience gave me a solid understanding of project flow, timelines, and the importance of accuracy in drawings and communication.

Architectural Design Projects

- Designed residential spaces focusing on functionality and usability.
- Created 2D drawings and 3D models using industry tools.
- Worked on detailing to ensure designs were practical and executable.
