INTERNSHIP / PROFESSIONAL TRAINING (Total Duration: 34 Weeks)
REPPLEN PROJECTS PRIVATE LIMITED

04-May-2026 - 30-Jun-2026

8 Weeks
PROFILE: Planning Intern

- Developed a 24-component Work Breakdown Structure (WBS) for a ₹125.92 crore, 12.74-acre institutional campus project (12 buildings, DRDO client), applying a quantity-to-manpower-productivity methodology to derive realistic activity durations.
- Built a 2-Year Target Schedule and a 34-Month Master Schedule in MS Project from ground-up, structuring activity sequencing, dependencies, and durations across residential blocks, utility structures, and external development works.
- Presented project schedules to the Deputy Project Manager, incorporating expert feedback on slab cycle timing and de-shuttering sequencing to refine the construction logic and improve schedule accuracy.
- Performed quantity take-off for key structural elements (columns, beams, slabs, parapets, mummy, OHT) above plinth level to establish the quantitative basis for scheduling and resource planning.
- Prepared Daily Progress Reports (DPR) and Non-Managerial Reports (NMR) to track planned vs. actual progress, supporting proactive schedule monitoring and control.
- Collaborated with a 3-member planning team to align quantity, productivity, and sequencing inputs into a unified, execution-ready master schedule.

PUBLIC WORKS DIVISION

01-Feb-2022 - 30-Jul-2022

25 Weeks
PROFILE: Intern

- Assisted in construction supervision of Government Hospital project, including quality checks and quantity estimation.
- Supported in cost estimation and BOQ preparation for Krida Sankulan ground compound wall project.
- Maintained site progress reports, measurement books, and documentation under guidance of PWD engineers.
- Coordinated with contractors and engineers to ensure work compliance with standards.

BAJAJ AUTO LIMITED

19-Aug-2019 - 24-Aug-2019

0 Weeks
PROFILE: Intern

- Gained hands-on exposure to manufacturing processes such as machining, assembly, and quality inspection.
- Assisted in monitoring production line activities to ensure efficiency and adherence to safety standards.

- Acquired knowledge of automation technologies, CNC machines, and manufacturing software systems used in production.
- Participated in discussions on new technology implementation and process optimization in vehicle manufacturing.
