8 Weeks

PROFILE: Urban Planning Intern

During my internship at the National Institute of Urban Affairs, I worked primarily on the Karnal Street Design Project, where I prepared GIS-based road hierarchy and Right of Way maps, conducted spatial analysis, mapped critical junctions, and developed AutoCAD drawings including junction redesigns and road cross-sections based on IRC standards. I also supported documentation and presentation preparation for project reviews. Additionally, I assisted in organizing the UrbanShift TOD workshop by coordinating with participants, managing communications, and preparing event materials. I contributed to NIUA's publication on gender-responsive transport by conducting secondary research, analyzing mobility case studies from different Indian states, and compiling documentation for the report.
