ECONSTRUCT DESIGN & BUILD PVT. LTD.

12-May-2025 - 11-Jul-2025

8 Weeks**PROFILE:** BIM AND PROJECT MANAGEMENT

Performed BIM and documentation-focused responsibilities with strong emphasis on coordination, compliance awareness, and structured data management, aligning with techno-legal workflows

essential in construction and redevelopment projects.

1. Utilized Autodesk Revit to prepare architectural models for villa and trailer park projects, adhering to client specifications and approval formats for submission.
2. Developed a revised proposal for a Texas-based trailer park redevelopment, ensuring spec-compliant restructuring and documentation alignment.
3. Investigated waterproofing and leakage remediation strategies for an existing G+10 building, preparing structured reports for contractor review and approval.
4. Conducted research on ERP-based Documentation Management systems to support structured record-keeping, audit readiness, and compliance tracking within the company's workflow.
5. Designed an interface in Microsoft Power Apps to simulate construction documentation flow for approvals, revisions, and record submission, improving transparency in documentation.
6. Presented a development concept pitch for Vijayanagara and Mysuru Districts, following government initiative formats, demonstrating understanding of proposal structuring, stakeholder communication, and policy-aligned presentation.

This internship strengthened my foundation in documentation processes, compliance-oriented workflows, stakeholder coordination, and structured communication, strengthening my ability to contribute effectively to techno-legal functions such as contract documentation, redevelopment advisory, and approval coordination. Currently seeking to apply these structured documentation and compliance-based project learnings.
