9 Weeks**PROFILE: PROJECT PLANNING****Fleet & MIS Reporting**

- Tracked and audited equipment assets across multiple project sites spanning several states
- Built monthly MIS dashboards for equipment units across categories including tower cranes, generators, dumpers, hoists, and rollers
- Monitored key metrics: operating hours, diesel consumption, breakdown hours, and utilization % per asset
- Created a dedicated Tower Crane Operations Dashboard — tracking operational status, AMC/TPI inspection compliance, breakdown calls, and operator/signalman availability
- Delivered a company-wide Master Fleet Deployment Audit with state-wise and category-wise value/utilization insights
- Identified cost-optimization opportunities — including crane redeployment, procurement timing, and reducing idle standing costs — presented as "value engineering" insights to senior management

Project Planning

- Used Primavera P6 to support project planning activities, including:
 - Creating and updating construction schedules
 - Tracking project milestones and progress against plan
 - Assisting with resource and manpower planning/allocation
- Coordinated planning inputs with site data (from MIS reports) to align equipment deployment with project timelines
