SUMMARY OF QUALIFICATION

Course / Programme	Board / University Name	CGPA/ (%)	Passing Year
MBA-ACM	NICMAR University, Pune	8.69	2027
B.Tech <i>Civil Engineering</i>	APJ ABDUL KALAM TECHNOLOGICAL UNIVERSITY	73	2022-Nov
Intermediate <i>Computer Science (CS)</i>	CENTRAL BOARD OF SECONDARY EDUCATION, KERALA	76.8	2018-May
High School	CENTRAL BOARD OF SECONDARY EDUCATION, KERALA	89.3	2016-May

TOTAL WORK EXPERIENCE: 29 month(s)
Sobha Limited

19-Dec-2022 - 05-Jun-2025

2 Years, 5 Months, 17 Days
PROFILE: Planning Engineer

Planning Engineer with 2.5 years of experience in 40-storey building construction projects overseeing all phases, including development, budgeting, scheduling, and construction. Familiar with project management tools and software.

Key Responsibilities :

- **Project – Sobha Manhattan Towers:** 40-storey residential project comprising 5 towers, clubhouse, and external amenities.
- **Project Planning:** Strategic planning and implementation of effective engineering techniques to ensure timely completion of the project within the planned deadline.
- **Project Scheduling:** Preparing detailed project schedules, monitoring progress, and comparing baseline plans with actual performance using Primavera P6.
- **Delay Analysis:** Identifying, quantifying, and analyzing project delays and assessing their impact on overall project timelines.
- **Weekly Meetings:** Attending weekly progress meetings, discussing critical issues, reviewing project performance, and coordinating necessary improvement measures.
- **Cost Estimation:** Preparing accurate cost estimates, project budgets, and cash flow forecasts to support effective financial planning and cost control.
- **Design Coordination:** Coordinating drawings and technical information with architectural, structural, MEP, and other design departments to ensure timely execution.
- **Inventory Management:** Managing material inventory through effective planning, procurement coordination, and material consumption analysis.
- **Manpower Requirement:** Monitoring manpower deployment and forecasting future labour requirements based on project schedules and construction activities.
- **Machinery Requirement:** Planning and arranging the required plant and machinery in line with project requirements, construction activities, and planned timelines.
