INTERNSHIP / PROFESSIONAL TRAINING (Total Duration: 10 Weeks)**Sobha Limited**

11-May-2026 - 13-Jul-2026

9 Weeks**PROFILE:** Intern-Project Planning

- Assisted in project planning, scheduling, and monitoring of structural, finishing, and non-tower construction activities.
- Prepared and updated project schedules using MS Excel and tracked planned vs. actual progress.
- Monitored daily site execution and identified delays, bottlenecks, and resource constraints affecting project timelines.
- Coordinated with site engineers and contractors to verify work progress and maintain accurate progress records.
- Conducted quantity take-offs for RCC works including concrete, reinforcement steel, earthwork, tiles, paver blocks, and water treatment structures using AutoCAD and Excel.
- Prepared workfront plans for finishing activities including Gyproc plastering and fire pipe installation.
- Scheduled and monitored terrace-level structural activities such as overhead tanks, flush tanks, lift machine rooms, staircase headrooms, and shafts.
- Performed material quantity reconciliation to support procurement planning and material control.
- Compared baseline schedules with actual site progress and assisted in delay analysis and reporting.
- Generated daily progress reports and maintained stage-wise photographic documentation for project monitoring.
- Supported planning and coordination between planning, procurement, and execution teams to ensure timely completion of activities.
- Participated in site inspections for quality control, finishing works, Mivan formwork, waterproofing, gypsum plastering, screeding, and tiling activities.
- Reviewed structural and architectural drawings using AutoCAD to verify measurements and prepare quantity estimates.
- Assisted in construction progress tracking, documentation, and project reporting for management review.

J & J CONSTRUCTION

16-Jul-2024 - 25-Jul-2024

1 Weeks**PROFILE:** INTERN

- Helped with site management, supervision, and inspections at two KIIFB-funded projects the KSFDK Theatre Complex in Vaikom and the Taluk Head Hospital in Kattakada working closely with engineers and contractors on day-to-day activities.

- Noticed the clear differences between private and government projects, especially in how approvals, documentation, and execution were handled.
- Got hands-on exposure to sustainable practices, like setting up STPs, implementing rainwater harvesting, and making sure buildings meet ECBC energy efficiency standards.
- Learned how safety is managed on site, from enforcing PPE use and accident prevention measures to understanding the importance of insurance compliance.
- Saw how quality is maintained in government projects, including material checks, third-party inspections, and strict record-keeping for accountability.
