INTERNSHIP / PROFESSIONAL TRAINING (Total Duration: 0 Weeks)**KNOW HOW SCHOOL**

25-Dec-2023 - 20-Jan-2024

3 Weeks**PROFILE: SITE ENGINEER**

During my internship, I actively contributed to different aspects of construction management and site execution. I was involved in monitoring and supervising ongoing work, making sure it matched the approved design drawings, quality standards, and safety practices.

I gained hands-on experience with surveying instruments like the Total Station and Auto Level, which I used for layout, leveling, and alignment activities on-site. I also assisted in formwork inspections, reinforcement checks, concreting operations, curing, and shuttering, which gave me a strong understanding of practical building processes.

In addition, I worked on verifying Bar Bending Schedules (BBS) and supported tasks such as quantity estimation, material management, and costing. I maintained daily progress reports (DPRs) and applied relevant IS Codes while ensuring quality execution of works.

This internship helped me build real-world exposure in RCC works, site documentation, and project management practices, bridging the gap between classroom learning and actual field applications.
