04-May-2026 - 12-Jul-2026

9 Weeks
PROFILE: Project Finance

- Analysed the FY2023–24 Balance Sheet, Income Statement, and Cash Flow Statement, along with company and power-sector trends, to identify key financial performance and valuation drivers.
- Conducted company and industry analysis, assessing funding structure, long-term borrowings, equity contribution, and 51.34% allocation of funds to Property, Plant & Equipment to evaluate OPTCL's capital-intensive business profile.
- Applied 3 valuation approaches—Market, Cost, and Income—using Comparable Companies Method, EV/EBITDA, Net Asset Value (NAV), and Discounted Cash Flow (DCF) techniques.
- Benchmarked OPTCL against 4 comparable power-sector companies, deriving a 9.925x average EV/EBITDA multiple and calculating INR 5,481.51 Cr Enterprise Value and INR 4,959.64 Cr Equity Value under the Market Approach.
- Performed DCF-based valuation using 10-year projected free cash flows, evaluating WACC of 8.43%, cost of equity of 10.06%, post-tax cost of debt of 6.36%, and terminal growth of 6% to derive INR 15,986.23 Cr Income Approach Equity Value.
- Integrated Market, Cost, and Income Approach outputs, including 10% Discount for Lack of Marketability (DLOM), to arrive at an INR 10,012.78 Cr final weighted equity valuation.
