PROFILE: COMPARISION STUDY OF ANALYSIS AND DESIGN OF STRUCTURAL ELEMENT BY USING STAAD PRO

- Conducted a comparative study of structural analysis and design approaches using manual calculations and STAAD.Pro.
- Developed structural models with appropriate geometry, material properties, support conditions, loading and load combinations.
- Interpreted structural analysis results and compared software outputs with manual calculations to understand accuracy and modelling assumptions.
- Applied relevant IS code provisions during analysis and design activities.
- Prepared technical documentation, drawings and presentation material and defended project methodology and findings during academic reviews and final viva.

Highbar Technocrat Limited
