J.B. INSTITUTE OF ENGINEERING AND TECHNOLOGY

01-Aug-2021 - 22-May-2022

42 Weeks

PROFILE: Intern

- Conducted a comprehensive literature review and designed the experimental procedure for preparing geopolymer concrete specimens. Assisted in data collection during the compressive strength testing process.

• Prepared and managed the chemical solutions of Sodium Hydroxide (NaOH) and Sodium Silicate (Na_2SiO_3), handled the preparation of different molarities (8M, 10M, and 12M) of sodium hydroxide solutions, and ensured all safety protocols were followed while handling chemicals.

• Supervised the mixing of fly ash, GGBS, fine aggregates, and alkaline solutions to prepare geopolymer concrete mixes. Monitored the curing process under direct sunlight and organized the compressive strength test data for various mixes.

• Managed the preparation and casting of standard cube specimens (150mm $\times$ 150mm $\times$ 150mm) and conducted compressive strength testing at the age of 7 days. Performed data analysis to study the influence of sodium hydroxide molarity on geopolymer concrete strength.

• Collaborated as a team to ensure systematic preparation, testing, and analysis of the geopolymer concrete specimens, while maintaining safety and accuracy throughout the project work.

Taskforce Interiors Pvt Ltd

18-May-2026 - 13-Jul-2026
