High School	STATE BOARD	67.2	2015-Mar

TOTAL WORK EXPERIENCE: 52 month(s)

Blastect Consulting

06-Jan-2021 - 15-May-2025

4 Years, 4 Months, 9 Days

PROFILE: Site Support Engineer

ROLES AND RESPONSIBILITIES:

- â€¢ Assisted in the construction and execution of water tanks, water-retaining structures, residential apartments, and commercial flats.
- â€¢ Supported day-to-day site operations to ensure smooth progress of civil construction activities as per project schedule.
- â€¢ Coordinated with site engineers, contractors, supervisors, and labor teams for effective workflow and timely completion of tasks.
- â€¢ Monitored construction work to ensure compliance with approved drawings, design specifications, and quality standards.
- â€¢ Conducted regular site inspections to check workmanship, safety practices, and material usage.
- â€¢ Assisted in quantity estimation, material planning, and inventory coordination to avoid delays in project execution.
- â€¢ Prepared daily progress reports and updated project status for management review and decision-making.
- â€¢ Helped resolve on-site technical and operational issues to maintain uninterrupted construction progress.
- â€¢ Ensured proper implementation of safety procedures and site housekeeping standards at all stages of construction.

INTERNSHIP / PROFESSIONAL TRAINING (Total Duration: 19 Weeks)

TRACTEBEL

19-May-2025 - 31-Jul-2025

10 Weeks

PROFILE: FIELD ENGINEER (URBAN INFRASTRUCTURE)

Field Engineer (Urban Infrastructure) | Tractebel | Chennai.

- â€¢ Managed and supervised on-site execution activities related to the construction of Sewage Treatment Plant (STP) infrastructure works, ensuring all activities were carried out in accordance with approved drawings, technical specifications, and project timelines.
- â€¢ Played a key role in coordinating daily site operations with contractors, supervisors, survey teams, and project engineers to ensure smooth progress and timely completion of work.

â€¢ Conducted detailed surveying and field inspections of water beds across a 48 km stretch, including topographical checks, alignment verification, level measurements, and site data collection to support planning and execution activities.

â€¢ Monitored the quality of construction work, materials, and workmanship to ensure compliance with project standards, safety regulations, and engineering best practices.

â€¢ Assisted in identifying and resolving site-level technical issues by providing practical engineering solutions to minimize delays and maintain project productivity.

â€¢ Prepared and maintained daily progress reports, survey records, measurement sheets, and other site documentation for effective project monitoring and reporting.

â€¢ Ensured implementation of safety procedures and environmental compliance during all phases of site activities, especially in water bed and urban infrastructure zones.

â€¢ Supported project planning and execution teams by providing accurate field data, progress updates, and technical observations for decision-making and reporting purposes.
