52 Weeks

PROFILE: STUDENT

PROJECTS :-

GREEN CONCRETE : A SUSTAINABLE SOLUTION TO HIGH DENSITY POLYETHYLENE

- This project explores the development of a sustainable concrete using high-density polyethylene (HDPE) as a partial replacement for traditional coarse aggregates.
- In this Project, we all have casted 24 concrete cubes with 0%,5%,7.5% & 10% HDPE induced in these concrete cubes and for each (% of HDPE) 6 concrete cubes were casted.
- After the curing of these concrete cubes, the compressive strength of these concrete cubes were found after 7 days & 28 days.
- The tests performed after curing of cubes were Rebound Hammer Test & Compressive Strength Test.
- Thus, 5% was the optimal HDPE content, and 5X20mm was the optimal size.

PROJECT MANAGEMENT OF (G+7) STORIED BUILDING BY USING PRIMAVERA

- In this project I have worked on the 6 month Internship Period at Deepshika Consulting Engineers at a (G+7) Storied Building and I have well planned and scheduled the projects of that (G+7) Storied Building in the Primavera P6 Software.
- Scheduled projects of (G+7) storied building to ensure the project is completed within the stipulated timeline. Utilized Primavera P6 Software for comprehensive project timelines & scheduling activities, including Creating Enterprise Project Structure (EPS), Organizational Breakdown Structure (OBS), Creating Projects, Work Breakdown Structure (WBS), Creating Activities, Scheduling of Projects & Project Delays etc.
- I have also assigned a calendar and also provided working days (Monday to Saturday) and working hours (8 hrs) and it also includes some holidays in festivals.
- I hereby also have given Project Delay of the (G+7) Storied building and the project gets finished within the stipulated timeline of (1year & 5months).

26 Weeks

PROFILE: SITE ENGINEER INTERN

ROLES:-

Worked as a **Site Engineer Intern** for **Six Months**.

RESPONSIBILITIES:-

As a site engineer intern, I was actively involved in the construction of Residential Buildings during my Internship Period. Thereby my responsibilities include:-

Keeping an eye on construction activities: Supervising day to day operations at site to guarantee adherence to construction plans and safety standards.

Helping with project planning and scheduling: Offering assistance to senior engineers in seeing whether the plans and schedules for the project are being properly followed on site.

Coordination: Working together with senior engineers, contractors and labor teams for the efficient advancement of the building project.

Reporting: Giving stakeholders and project management regular information on the state of the project by uploading Daily Project Reports in Whatsapp groups which were later shared with clients.

Experience: Gained practical exposure to infrastructure (building) projects from on-field observations and construction activities.

This internship has provided me with practical exposure to large-scale building projects, enhancing my technical and construction management skills.
