INTERNSHIP / PROFESSIONAL TRAINING (Total Duration: 9 Weeks)**SOBHA Ltd.**

11-May-2026 - 13-Jul-2026

9 Weeks**PROFILE:** Planning

SOBHA Ltd. | Planning Intern

SOBHA Madison Heights, Bengaluru | May–July 2026

- Assisted in preparing and updating **Primavera P6 schedules, WBS, activity relationships, and look-ahead plans**. This developed my understanding of how a delay in one activity can affect the sequence of work that follows.
- Compared **planned schedules with actual site progress** and monitored critical activities. When progress differed from the plan, I reviewed site status and raised potential delays for discussion rather than treating the schedule update as a routine data entry exercise.
- Tracked **manpower, quantities, and productivity** for reinforcement, formwork, and concreting. I learned to examine these together when assessing whether an activity was progressing as planned.
- **Verified construction quantities against drawings and site measurements**, reinforcing the importance of checking the source of a figure before using it in a progress report.
- Prepared weekly **progress reports, dashboards**, manpower trackers, and drawing trackers, presenting site information clearly so that planning and execution teams could act on it.
- **Coordinated with site execution, QA/QC, stores, and subcontractor teams** to clarify activity status and constraints. This taught me that reliable project analysis depends on listening to different teams and checking their inputs against site evidence.
- Gained practical exposure to **MIVAN formwork, self-climbing platforms, and slab-cycle execution**, connecting **schedule logic** with the physical sequence of high-rise construction.
