VAISAKHI DEVELOPERS

04-May-2026 - 06-Jul-2026

9 Weeks
PROFILE: Project Management Intern

- Monitored day-to-day concreting operations using Mivan (aluminum formwork) technology, conducting pre-pour checks (panel alignment, rebar spacing, cover blocks, MEP sleeves/inserts) and post-pour checks (surface finish, deshuttering time, curing compliance) to ensure adherence to structural drawings and quality standards.
- Verified reinforcement works including bar diameter, spacing, lap length, and cover as per structural drawings, coordinating with the site team to rectify discrepancies before pour approval.
- Checked shuttering/panel levels and verticality using level instruments prior to each pour cycle, ensuring dimensional accuracy critical to Mivan's fast-track construction method.
- Actively participated in HSE (Health, Safety & Environment) meetings, reinforcing safety protocol adherence among site labor and contractor teams.
- Led Quality Control (QC) and Quality Assurance (QA) checks across construction stages, documenting non-conformities and driving corrective/preventive actions with the QC team.
- Conducted inventory inspections, tracking material stock levels (cement, steel, shuttering hardware) to support procurement planning and minimize project delays.
- Engaged in sales and customer relationship activities — identified target customer segments through market analysis and successfully closed sales of 2 residential flats, gaining cross-functional exposure to real estate sales and client engagement.
