PROFILE: PROJECT ARCHITECT
Vinayak Industrial Park — plotted MSME Industrial park · 38 acres · Project Architect

- Led site reconnaissance, feasibility study and project-potential reporting; converted options into a master-plan and plot-layout pack used for infrastructure planning and plot allotment.
- Quantified how layout options affected plot yield, infrastructure capex and development potential, the commercial inputs a detailed project report (DPR)/ development proposal needs before allotment.
- Issued construction and presentation drawings and closed Development Corporation statutory comments inside the design cycle so the layout stayed inside the sanctioned envelope.

G+4 cooperative housing society · Residential · Project Architect

- Took concept through coordinated construction drawings; managed consultant and society-client reviews and Development Corporation liaison through statutory approval.

RADIANT

01-Jul-2022 - 31-Jul-2024

2 Years, 0 Months, 30 Days
PROFILE: ARCHITECT
Kurseong IT Park - adaptive reuse · WEBEL, Govt. of West Bengal · 1,50,000 sqft · IT & ITeS · Project Architect & Coordinator

- Converted a multi-storey car park to IT / ITeS. Issued a coordinated architecture-and-services design package so structure, fit-out and services could be procured as separate capex packages.
- Locked finish specifications and wrote finish BOQs; established a replacement-cost baseline (same quantities and unit rates) for short-life FF&E versus the retained structure, a quantum / cost-control split by asset life.
- Treated the existing frame as a cost and schedule constraint: documented keep / replace / change-of-use implications for structure and services rather than treating the building as a design given only. Also conducted Earned value analysis during project execution phase

Westroad Heights - G+7 housing · Westroad Pvt Ltd · 4 acres · 1,95,000 sqft · Architect · Completed

- Took the scheme from design through construction documentation (superstructure, interiors, façade, site development).

MBA-APM | MBA in Advanced Project Management

- Used site visits to catch design-versus-build gaps and issued finish estimates the client used as a cost-to-complete check before locking commercial decisions.

R&R colony master plan for project-affected families · WBPDCCL · Mohammad Bazar, Birbhum · 65 acres / 4 sites · 1,500 families · Execution ongoing

- Turned client requirements into concept options, block models and apartment / commercial modules, then a single master-plan layout with amenities.
- Built the framework from URDPFI and RADPFI and from data collected across government authorities, a standards-backed plan now in execution rather than a one-off sketch.

Government Advisory · WBIDC and WEBEL · Industrial parks across the state

- Reviewed sanction drawings for industrial-park plots against each authority's bye-laws and issued reports that named the violation and the governing clause, so approvals rested on evidence rather than informal comment.
- Served as site inspection officer: periodic checks of construction against the sanctioned drawing, with written inspection reports, findings were issued within 7–10 days of application.
- Supported **West Bengal Industrial Development Corporation Limited** (WBIDC) and **West Bengal Electronic Industry Development Corporation** (WEBEL) IT teams configuring Smart DCR and OBPAS for workflow and automated bye-law checking on the statutory process.

INTERNSHIP / PROFESSIONAL TRAINING (Total Duration: 34 Weeks)
Kayne Bio Sciences Ltd

04-May-2026 - 04-Jul-2026

8 Weeks

PROFILE: Project Execution Intern

- Built execution plans and baseline Gantt programmes in MS Project and Excel for polyhouse and building works (milestones, resources, sequence).
- Prepared quantity take-offs, unit-rate build-ups and civil budget estimates; compared planned spend with emerging site cost so overruns were visible early.
- Worked across planning, execution, procurement, contracts and operations so design changes and site adjustments were reflected in both the schedule and the budget.
- Helped prepare procurement lists, subcontractor papers and basic contract-compliance checks.
- Wrote feasibility notes covering physical constraints and comparative capex alternatives for Eco-Farm proposals so management could weigh scope on cost, not only on layout.
