TOTAL WORK EXPERIENCE: 21 month(s)
Acotech Consultants Private Limited

21-Aug-2023 - 08-Jun-2025

1 Years, 9 Months, 18 Days
PROFILE: Contract Engineer

1. Contract Administration

- Administered construction contracts as Project Management Consultant, issuing RFIs to contractors and maintaining audit-ready contract and cost documentation for governance and compliance.
- Evaluated Variation Orders through rate analysis and assessed cost and time impact for client approval.
- Reviewed and certified monthly contractor progress bills, ensuring valuation accuracy against BOQ and contract terms.

2. Quantity Surveying & Cost Control

- Prepared detailed cost estimates and full BOQs with rate analysis for contractor tender packages, and secured client approval before tender issuance.

3. Planning & Project Controls

- Monitored project schedules in Primavera P6, tracking activity sequencing, critical path status and delay events.
- Compiled daily, weekly and monthly progress reports (physical progress, financial performance, risk exposure, delay status) for client and senior management.

4. Tendering, Presentations & Stakeholder Management

- Presented Detailed Project Reports (DPRs) to the Commissioner and Chief Engineer to obtain approvals.
- Prepared and submitted tender documentation, managed online tender filing, and represented the consultancy at pre-bid meetings.
- Coordinated with clients, contractors and internal teams from pre-bid through award and execution.

INTERNSHIP / PROFESSIONAL TRAINING (Total Duration: 33 Weeks)
MASIN PROJECTS PRIVATE LIMITED

04-May-2026 - 04-Jul-2026

8 Weeks
PROFILE: Summer Intern – Delay & Quantum Analysis

1. Co-authored a Delay Analysis and Extension of Time (EOT) report for a INR. 1,460 Cr Design & Build commercial high-rise project, covering six delay events across 34 monthly analysis windows.

2. Performed window-based Time Impact Analysis (TIA) in Primavera P6 in line with the SCL Delay & Disruption Protocol (2nd Edition) and AACE 29R-03, inserting fragnets into revised baseline programmes and tracking critical path movement.
3. Carried out CPM analysis and float tracking on baseline and progress schedules to quantify the schedule impact of each delay event.
4. Classified delay in each window as excusable and compensable, concurrent, Contractor-caused or mitigated, supporting an EOT entitlement of 360 days and the request for waiver of Liquidated Damages.
5. Built evidentiary delay chronologies from correspondence, transmittals, RFIs and site documentation, linking each delay event to its causal evidence.
6. Prepared and reconciled analysis annexures (window-wise impacted programmes, consolidated delay-event list, summary tables) against the report text and source programmes.

CSIR - National Environmental Engineering Research Institute
