PROFILE: INTERN

- Learned how centerline marking is carried out on site using reference points and measuring tools.
- Observed the procedure of excavation work, including depth measurement and soil levelling techniques.
- Understood the concreting process including mixing, pouring, compaction, and curing methods.
- Studied how brick masonry is executed with proper alignment, bonding and mortar application.

KANDULA SRINIVASA REDDY MEMORIAL COLLEGE OF ENGINEERING

01-Nov-2022 - 01-Mar-2023

17 Weeks

PROFILE: STUDENT

- I was the Project Leader for the Design and Feasibility of Rainwater Harvesting System for the college hostel.
- Collected and analyzed data related to rainfall.
- Measured the terrace carpet area to calculate potential rainwater collection capacity.
- Prepared the hostel layout using AutoCAD.
- Designed the complete rainwater harvesting layout, including collection, filtration and storage system.
- Estimated the required capacity of storage tanks based on rainfall intensity and roof area.

Afcons Infrastructure Limited

18-May-2026 - 31-Jul-2026

10 Weeks

PROFILE: Execution & Planning

- Supported the Planning Engineer in activity planning, scheduling and progress monitoring using Primavera P6.
- Developed understanding of WBS, activity sequencing and logical relationships for precast segment casting activities.
- Monitored planned versus actual progress and coordinated with execution teams to maintain the planned production cycle.
- Coordinated reinforcement, formwork, survey, QA/QC and concreting activities to ensure smooth execution as per the planned sequence.
- Monitored manpower, material and equipment requirements for segment production and site activities.

- Coordinated parallel activities and identified activity constraints affecting the planned production schedule.
- Monitored segment stacking, handling and dispatch activities in line with the production and erection schedule.
- Supported coordination of material and equipment requirements with site execution teams for uninterrupted construction activities.
- Gained practical exposure to marine piling, pile caps, piers and pier caps, understanding their sequence and interface with project planning.
- Gained practical understanding of precast segment production, resource planning and site execution coordination in a large infrastructure project.
