Project : Tirupati Puram

Documentation & Reporting

Daily Reports: Prepare and maintain daily site reports, logging work progress, labor attendance, material delivery, equipment usage, and any significant events or issues.

Progress Monitoring: Track the project schedule, reporting updates, milestones, and potential delays or risks to the Project Manager or key stakeholders.

Record Keeping: Maintain comprehensive records of all site activities, inspection reports, test results, and correspondence.

Quantity Verification: Check and verify material quantities and work performed for payment purposes

Material Check: Verify that all materials delivered to the site meet the specified quality standards, checking supplier

invoices and conducting necessary material tests

Workmanship Check: Ensure the quality of workmanship aligns with industry standards and project specifications before approving any stage of work to proceed (e.g., checking steel reinforcement before concreting).

Safety Implementation: Oversee and enforce site-specific health and safety procedures and regulations to maintain a safe working environment.

MAJESTIC REALTIES
